Module:		**Business_Area:**	

Description

Preparation

- Prepare a working YR that is recognized on the test environment
- Prepare 6 sensors & a mechanism for the sensors to send alerts (special sensors / pump bottle setup)
- Prepare an HHT file with the IDs of these 6 sensors with S2-D4 configuration
- Prepare another HHT file with the IDs of these 6 sensors with a T2-T2-T2 configuration
- Prepare two independent web browser environments on your PC using different browsers / incognito / different machines etc.
- One of these environments will be used for Admin activities & the other will be used for User activities

Steps

- Log in as an CKU into the Admin environment
- Go into User Management and find an account "X" in a non-English & non-German market that is not shared with ContiOnlineContact.
- In this market, find a fleet that is linked to an SAP account (starting with 7xxx)
- Create a fleet level portal user for this depot & permissions to create vehicles (User "A")
- Go into User Management and find an account "Y" that is integrated with ContiOnlineContact for the USA
- Find an depot such that the Depot ID = Fleet ID
- Create a new portal user with no access to vehicles below the depot level (User "B")
- Create a workshop view user (User "C")

- Assign the YR to a depot in customer "Y" and set to Active.

- Go to Vehicles tab in the Administration area and create a new Bus "U" in depot "X" with an S2-D4 configuration.
- Set the vehicle to "Show & Pay" as billing option
- Set the RCP to appropriate values so that the 6 sensors that are prepared will send urgent and minor alerts.
- Set the units to BAR and Celsius

- In the User environment browser, log in with the credentials of User "A"
- Verify that the vehicle "U" that was created is visible to the user
- Upload HHT file for the 6 sensors to this vehicle
- Create 2 recipients with different languages to receive SMS and Email to this vehicle (ensure we use external email addresses - non Conti email)
- Ensure that the vehicle receives alerts and updates continuously from the sensor.
- Check for toasts in the user environment
- Check if SMSes and Emails are received with correct pressure & temp units in the correct languages

- In the admin environment, go to Vehicles tab in the Administration area and create a new trailer "V" in depot "Y" with an T2-T2-T2 configuration.
- Set the vehicle to "Show & No Pay" as billing option
- Set the RCP to appropriate values so that the 6 sensors that are prepared will send urgent and minor alerts.
- Set the units to PSI and Fahrenheit

- In the User environment browser, log in with the credentials of User "B"
- Verify that the vehicle "V" that was created is visible to the user in the myFleet view
- Upload HHT file for the 6 sensors to this vehicle
- Create 2 recipients with different languages to receive SMS and Email to this vehicle (ensure we use external email addresses - nonConti). In this step ensure one receives only SMS and one receives only Email.
- Ensure that the vehicle receives alerts
- Check for toasts in the user environment
- Check if SMSes and Emails are received with correct pressure & temp units in the correct languages

- In the user environment, log out and log in with User "C"
- Ensure that the workshop view shows the vehicle status correctly
- Ensure that the birdview and the alerts are correctly visible

Items not covered, but could be added in near future

- Mobile device browser testing
- Testing of vehicle creation & editing with User "A"
- Testing of dashboards & pressure history
- Testing of CITE functionality (label editor, user manuals, password policy etc.)

Subtasks:	
PW Epic # 14345: Conti Connect R11/17 IT Tests	**Closed**
PW Test Case # 14346: Admin: Create new Vehicle	**Passed**
PW Test Case # 14352: Admin: Create new Vehicle (PSI / Fahrenheit)	**Passed**
PW Test Case # 14354: User: Test Alert Notifications (Trailer)	**Passed**
PW Bug # 14357: Depotmanager issues	**Closed**
PW Bug # 14358: Recipient: no Email or SMS	**Closed**
Bug # 14406: Change recipient Name does not get UI updated	**Closed**
PW Test Case # 14356: Workshop view user	**Passed**
PW Bug # 14587: Reloading page problem	**Rejected**
PW Task # 14359: Test Preparation	**Closed**
PW Test Case # 14361: Observation List – Update of new observations	**Passed**
PW Bug # 14372: No update of KPI	**Closed**
PW Test Case # 14369: KPIs: noAdmin, myFleet	**Passed**
PW Test Case # 14373: KPIs: Admin, myFleet	**Passed**
PW Bug # 14404: Wrong KPI Numbers	**Rejected**
PW Test Case # 14384: Observation List – Update of changed observations	**Passed**
PW Bug # 14378: Change of Observation to stable	**Closed**
PW Test Case # 14385: Sensor data available - normal user	**Passed**
PW Test Case # 14386: Observation List – Update of deleted observations	**Passed**
PW Bug # 14371: Deleted Observation	**Closed**
PW Test Case # 14422: Show / No-Show vehicle in Portal - Admin Check	**Passed**
PW Test Case # 14423: Show / No-Show vehicle in Portal - NoAdmin Check	**Passed**
PW Bug # 14426: Sensor inconsistency	**Closed**
PW Test Case # 14538: Fleet Hierarchy authorization	**Passed**
PW Bug # 14539: Dashboard Hierarchy authorization	**Closed**
PW Bug # 14540: "Benachrichtigungen" hierarchy authorization	**Closed**
PW Test Case # 14542: MyFleet update	**Passed**
PW Bug # 14545: MyFleet: List is not updating	**Rejected**
PW Bug # 14546: Vehicle of vehicle list chages from red to green	**Rejected**
PW Bug # 14547: FA-SENSORRESULT is slow	**Rejected**
PW Test Case # 14549: Check "Historic Report" in detailed view	**Passed**
PW Bug # 14557: History issue of Dashboard	**Closed**
PW Bug # 14558: Missing Translation	**Rejected**
PW Bug # 14559: Missing translation (french)	**Rejected**
PW Bug # 14565: Pressure History: period=last week	**Rejected**
PW Bug # 14566: Pressure History: period=last 24 hours	**Rejected**
PW Bug # 14568: Vehicle search issue	**Closed**
PW Test Case # 14572: Historic Report - bar check	**Passed**
PW Test Case # 14573: Historic Report - psi check	**Passed**
PW Bug # 14575: HHT upload issue	**Closed**
PW Test Case # 14578: HHT upload	**Passed**
PW Bug # 14583: Fa.observation service - No space left on device	**Closed**
PW Test Case # 14584: Delete recipien with no assignments	**Passed**
PW Defect # 14585: Deleting of recipient issue	**Closed**

PW Test Case # 14586: Delete recipien with assignments	**Passed**
PW Defect # 14593: NoAdmin User: Creating and editing of vehicles incositanc	**Closed**
PW Test Case # 14604: Create recipien as fleet user & delete it with depot user	**Passed**
PW Defect # 14605: Workshop View: Vehicles disappears suddenly	**Closed**
PW Epic # 14407: BAT R11/17 Business Tests	**New**
PW Test Case # 14408: Admin: Create new Vehicle	**Passed**
PW Test Case # 14409: Admin: Yard Reader assignment	**Passed**
PW Test Case # 14410: User: Test Alert Notifications	**Passed**
PW Test Case # 14411: Admin: Create new Vehicle (PSI / Fahrenheit)	**Passed with Reservat**
PW Bug # 14544: "Others" not available as a Vehicle Make for Bus	**Rejected**
PW Test Case # 14412: User: Test Alert Notifications (PSI / Fahrenheit)	**Passed**
PW Test Case # 14413: Workshop view user	**Testing Phase**
PW Bug # 14570: Workshop View not loading vehicles correctly	**Closed**
PW Test Case # 14414: Observation List – Update of new observations	**Passed with Reservat**
PW Bug # 14550: RCP not visible to customer despite low pressure alerts	**Closed**
PW Test Case # 14415: Observation List – Update of changed observations	**Passed with Reservat**
PW Bug # 14548: Low Pressure Alerts but no Pressure displayed	**Rejected**
PW Test Case # 14416: Observation List – Update of deleted observations	**Passed**
PW Test Case # 14418: KPIs: noAdmin, myFleet	**Testing Phase**
PW Test Case # 14419: KPIs: Admin, myFleet	**Testing Phase**
PW Test Case # 14420: Sensor data available - normal user	**Passed**
PW Bug # 14553: Wrong text after editing in label editor	**Closed**
PW Test Case # 14424: Show / No-Show vehicle in Portal - Admin Check	**Passed**
PW Test Case # 14425: Show / No-Show vehicle in Portal - NoAdmin Check	**Passed**
PW Bug # 14541: Get Customer Data from SAP does not return customer details in User Man...	**New**
PW Bug # 14543: Missing options in CITE for US-360FS User	**Closed**
PW Bug # 14554: Email notification missing	**Closed**
PW Bug # 14555: Test HHT file does not work	**Closed**
PW Bug # 14579: Cannot set vehicle to Inactive	**Closed**
PW Bug # 14588: Some passwords are not working	**Closed**
PW Bug # 14589: Inactive Vehicle is sending toasts, SMSes and Emails	**Closed**
PW Bug # 14590: KPI tiles unreliable	**Closed**
PW Bug # 14576: Logout button does not work	**Closed**
PW Epic # 14609: BAT R11/17 Business Retest	**New**
PW Bug # 14608: Vehicle List & Alert List do not load (QA)	**Closed**
PW Bug # 14610: Invalid Sensor IDs found (Inconsistent/old Testdata)	**Rejected**
PW Bug # 14611: False urgent alerts shown in alerts view that turn green when extended ...	**Closed**
PW Story # 14613: KPI Tile values are incorrect (Business Logic Enhancement)	**Testing Phase**
PW Bug # 14653: False urgent alerts shown in alerts view that turn green when extended...	**Rejected**
PW Bug # 14679: Portal does not load data (26.11)	**Closed**
PW Bug # 14649: Workshop View: Workshop List: Vehicle shows yellow alert when bird view...	**Closed**
PW Bug # 14657: Missing Vehicles in PROD (OK in Admin, missing in Portal)	**Rejected**
PW Bug # 14670: Translations do not currently work	**Closed**
